

TOWN OF RIDGEFIELD

Water Pollution Control Authority

Date: November 4, 2025

Subject: Costs for the South Street WWTF and Route 7 Pump Station, Force Main and WWTF Decommissioning project, remain within their current \$56.7M budget.

The final resolution of the project costs with the Contractors is being addressed in conjunction with the Town's Attorney. The WPCA is pleased to have brought these highly technical, energy efficient, and needed wastewater infrastructure upgrades to completion as they are critical elements to protect public health and the environment. These projects will allow Ridgefield to maintain itself as a desirable place to live and conduct business for the benefit of the community. The WPCA and the Town's Attorney will continue to diligently work on the Town's behalf to close the projects in a fiscally responsible manner."
